Roberto Machado NoaGetty Images Universal Studios Hollywood and Universal Orlando Resort have extended their closures until at least 31 December. until 1 May due to the coronavirus pandemic. Closings include theme parks and Universal CityWalks in both parks, as well as Universal Orlando Resort hotels. We know that coronavirus (COVID-19) has affected many parts of your life – including your travel and holiday plans, and we are eager to welcome you back to our theme parks and destinations when the time comes, the company said in a statement. For now, we need to put the health and safety of our guests and team members first and we will continue to take guidance from health agencies and government officials. If you have a ticket to the date the Universal Studios Hollywood theme park is closed (March 14 to May 31), it will be automatically extended until December 18, 2020. But if you can't visit this time period, you can use the value of an unused ticket for a new purchase. Un expired disposable tickets and multi-day tickets to Universal Orlando Resort are valid on any day for 365 days from the date of purchase, but non-expired multi-day tickets must be used within seven days of the first day of use. In both locations, all fully paid annual or season passes are extended to the number of closed days in theme parks. Want to experience Wizarding World of Harry Potter at home? You can ride Harry Potter and the Forbidden Journey from your couch, take free Hogwarts online classes and try to solve Hogwarts' virtual escape room. You can also visit the Harry Potter At Home Centre to do quizzes, read articles and listen to Harry Potter and the Philosopher's Stone for free. Follow House Beautiful on Instagram. Universal Studios Hollywood is a good choice for all generations because it has certain features that make it easier to negotiate than other theme parks. Read my general theme park tips for grandparents and then get ready to enjoy Universal! If you visit Universal Studios in the summer, pay for Front of Line passes. You're going to be glad you did it. Front of Line passes give you instant access to all rides and shows. It is true that you may have to wait about ten minutes with other passport holders, and you still have a plan for which programs you want to see and be in the right place at the same time. However, through Front of Line passports it is possible to see the whole park a day, even in summer. Many consider the Front of the Line infinitely better than Disney's Fast Pass. This is due to that Universal sells Front of the Line entry to only 10% of visitors, while every Disney visitor can get Quick passports. It is true that Universal's passports cost significantly more than regular entry. Still, when you look at the cost of getting into the park and the associated expenses, the pop-up of Front of the Line passes to make it more enjoyable just makes sense. Buy them online, if you wait to get to the park, they can be sold out. Learn more about getting tickets. A more expensive option is the VIP Tour, which offers you unlimited Front of the Line access, two meals, valet parking and a personal tour. At almost three times the price of regular admission, it is not an option for many. J.K. Rowling fans are rightly thrilled with the second location of Harry Potter's Wizarding World in the UNITED States, which opened in April 2016. This is very much like the Orlando version with a few key differences. The Hollywood version lacks hogwarts express and diagonon, although the latter may be added later. On the minus side, opening the Harry Potter attraction certainly means larger crowds and longer lines. But if you're in the west of the United States, at least you've got a wizarding world a little closer than Orlando. The feature that sets Universal Studios apart from other theme parks is the Studio Tour. Occupying an hour part, it consists of a rest ride on the tram - restful, unlike when King Kong threatens tourists. You might think younger grandchildren find the tour boring. Wrong! While they're unlikely to be thrilled with features like Munsters House and Bates Hotel, the tour includes exciting pieces on nostalgic sites, keeping everyone entertained. You may experience flooding, survive an earthquake at a metro station and dodge aching cars in a quick and furious scenario. The most hyped part of the tour is Peter Jackson's King Kong 360 3-D. Tram drives between two curved screens, the equivalent of 16 regular movie screens, and passengers witness an epic battle between King Kong and T-Rex. Production values are very high, but looking at the film from the tram dilutes the effect slightly. Action takes place on both sides, but it is impossible to look at both sides at once. The King Kong attraction may be a little overhyped, but Studio Tour lives up to its reputation as the soul of Universal Studios. Don't miss it. The theme park's dining experiences can be almost nightmarish. Some theme park restaurants now take reservations and can be almost impossible to access without them. Other restaurants are so crowded and chaotic that it feels like your food has been thrown at you. And it doesn't even go to the quality of the food. Realizing, perhaps, that people really preferred to eat outside the park, Universal developed CityWalk, a three-block long area of restaurants, shops and entertainment venues right next to Universal Studios. The hotel has about 30 restaurants. Some of them may be full, but it's busy restaurant restaurant No amusement park madness. And yes, they are mainly chain restaurants like Bubba Gump and Hard Rock, but they are real restaurants where grandparents can catch their breath. (Disney has a similar foundation to Disneyland and Walt Disney World with downtown Disney.) In addition to the Walking Dead feature, Universal Studios adds another touch of macabre. It already had a mummy ride, a favorite of many, and a House of Horrors. These sights can be too scary for young people. Tamer's favorites are The Simpsons, an amazing ride simulator with Simpsons brand humor, and Jurassic Park, which makes you wet. Shrek 4D is another favorite. In 2012, Despicable Me Minion Mayhem, a 3D ride that has received good reviews, was added to the park. Universal Studios Hollywood's physical appearance gives it a slightly different air. The main difference is the division of the park into Upper Plot and Lower Plot. The lower batch is smaller and further from the entrance, so it is a little quieter. The escalators that take you down the hill give you a good view of the surrounding area and are easy on your feet at the same time. It was as if Universal had grandchildren and grandparents in mind from the start.
